“ *The world lost quite a unique individual who had work ethics that many couldn't even imagine from the get go. Art was my 'work neighbor' next door to us since we moved next to A.W Radtke in 2000. Art worked until the very end of his life. He probably never even realized the impact he had with the people around him because of his work ethics.RIP Art. It will never be the same at Centerline, and most definitely at Vic&Son Machine Tool without you there. Thank you for all the help you have done for all of us with your experience, knowledge, and your admirable ability to keep on going till the very end of your life. You really were incredible at what you did, and we'll all miss having you around.*

“ *My husband Richard Pecina worked with Mr.Radtke to help develop our business in making a teaching tool for dentistry teaching - Endo-Vu.I met him many times when I picked up our product from him. He was always so friendly and helpful.The business he helped develop in the 70's is still in existent. My daughter Kristin Pecina now runs it.A very dear man.*

“ *To a wonderful, kind man and father. Could not ask for better. Miss you, love you, Dad. Love, Ralph*

Ralph Radtke - April 27, 2018 at 03:51 AM

RL

“ *Ralph, sorry for your loss. Please pass our condolences along to your sister and brother as well. Still see Hall & Murphy all the time. Still talk about those baseball teams- we rocked!*
