“ *Bette was a client at the salon I work at. She always put a smile on my face. She'd park in the back and I'd meet her at the back door to let her in. She'd tell me everything that's new in her life and how she was going for her drivers test again and had her cheat sheet hidden in the car so she'd remember how to park uphill and downhill. Always had the best sass and wit to her. Definitely enjoyed the days I got to see her. I will miss her. She was a sweet, sassy lil lady*

“ *Bette was my first boss at RH Donnelly. A class act in every sense of the word.*
