“ Don was a constant source of wisdom in my life. I was fortunate enough to meet him in 2011 and my life is better is because of him. He had a way of simplifying things and helped me understand that everything happens for a reason. Him and Gail always opened up their house to our family. We had great experiences that have now become treasured memories. Don thank you. You will life forever in our hearts.

“ Don, it broke me when I got the news! So much I would love to say, with far to little space! I will never forget your kindness and support over the years!
From day to day issues including my wedding day, you were there! I will think of you often! I loved you like a brother!

Don, You will be sorely missed!! You were a solid friend (and super mechanic) whenever my family and I needed help. Ever since I first met you in the mid-70's, you were always there for help and advice. I really enjoyed the early morning talks sitting in your barber chairs before work, you honest input and thoughts. I will miss your joking with us and your honesty when it came to our cars. I will miss you with a sadness in my heart but a smile on my face when I think of you and Gail. Thanks for everything old friend.
