“ As a long time member of the Centre club in Libertyville. I got to know Erik very well. Erik was very committed to his running and work out regimen. I enjoyed catching up with him whenever we were at the club together.

“ Your model trains are a cherished memory and a something that inspired a young child to learn how machines are put together. That young child ended up spending a career working on nuclear submarines... the craftsmanship and know-how of your model trains remains a cornerstone of my education and I thank you dearly for that.
