“ To Donna, Paul Lindley and Lisa Lorenzi - I am so so sorry for your loss! My heart aches to hear this news.

*James was a wonderful guy, my first boyfriend in MHS, and my first love. Although, we didn't keep in touch after HS, I knew he was in great hands with Lisa based on the pictures I saw of them on Facebook.*

*James and I shared many fun and funny memories... Him and I would walk to school and back together and I supported him while he played football. We used to keep a journal where we wrote cute notes to each other since texting was a big thing back then. We went to our first dance (see pic below 😊). I will miss him greatly!!!*

*Heaven has gained another angel ~ James you will be forever in my thoughts.*

*My deepest condolences to you and your family.*

*With love,

“ *I have never met James.  
It is through Lisa that I got to have a glimpse of him.  
Looking back at Lisa's posts they seem to be fun loving people. The fact that they enjoyed being together most of the time tells me that they really loved each other's company.  
May it bring a comfort to Lisa and your family that James experienced being in love, happy and loved back in return while he was here with us.  
Goodnight James. May the angels keep watch over you.*

“ I studied dietetics with James and Lisa. They were the power couple of our program. Always the smartest, kindest, most helpful and funny pair. I really enjoyed our classes together but my fondest memory is of our cooking lab and demonstration class. We had so much fun. Sending love and condolences.

“ I am very sorry to know of James passing. My condolences to Lisa and James’s families for their loss. I had both Lisa and James in my class as my students. Of course they were always together. James was very good with camera and enjoyed taking photographs. He was responsible for maintaining visual documentation of the activities of the Food &. Culture Club of the Western Illinois University. He was missed by the club upon his graduation. As a teacher and a parent I cannot think of a greater sorrow than loss of a young life.  
Lisa my thoughts are with you, your and James’s family. May you find strength in this trying time.

I never knew him personally but Lisa often spoke at great length of her boyfriend and was always happy and cheerful when doing so. “ I met James several years ago while I was the food service manager at a local nursing home. He and Lisa volunteered with our department for work experience. I remember James as a lovely young man, upbeat and positive. Our retired ladies loved working on baking projects with him. They adored his smiles and laughter. ( as did we all!) He brought a much needed ray of sunshine to them. I send my heartfelt condolences to Lisa and Jame's family. Peace be with you James! Joyce Miller and the Food Service crew from Winchester House

“ James, when I think of you, my first thoughts are of how incredibly gifted athletically you were. You had that “Farm Strength” so naturally strong, and everything seemed easy for you. Starting all the way back in elementary you were doing tumbling routines from one end of the playground to the next while all the boys were playing football on the blacktop you were getting surrounded by all the girls. Middle school we played in MJFL and had our small group of guys where we would spend lots of quality time after school making each other laugh and cry. One of my favorites was going to the church on 176 to play basketball inside on carpet for hours. Then of course high school football, we had a tight knit group within the group. It was a special time growing and maturing into men and sharing a great bond with each other I’ll never forget. James, my friend you will be missed.

“ James and I were never close friends but he was always a great addition to hangouts with the band. He will be missed.

“ I was fortunate to have James in several classes at WIU. Lisa was also in all of those classes as I believe they had the same schedule as they were always together smiling to others. James brought new perspectives into nutrition classes that made for interesting discussions. I remember the senior class preparing healthy selections for the Go Red Luncheon the first Friday in February in honor on Women's Heart Health. The class worked as a team to cater the meal to the Multicultural Center. James could be seen smiling from ear to ear as he appeared to appreciate the team effort of the senior dietetics students for such a successful endeavor. My condolences go out to his family and the love of his life, Lisa.

“ James was a beloved part of the Lorenzi family for over 15 years. Lauren and I always looked forward to seeing him when we visited home.

*I first met James when we were in high school, and we thereafter shared so many common interests: anime (Cowboy Bebop), video games (he was always so generous, even lending me his Xbox 360 for a time), and music.*

*As time passed, we did not see each other as frequently as one would have wished, I treasured every chance we had to reconnect. It was a joy seeing James grow from a teenager into a caring young man.*

*I vividly remember visiting Six Flags Great America with James, Lisa, & my Dad a couple of summers ago. We talked nonstop as we waited in line for the rollercoasters, reminiscing and laughing.*

*Years before, I remember walking around a hotel near Western Illinois with James & Lisa, sharing stories about college, and exchanging tips on diet and fitness.*

“ *I will never forget meeting James. Being a bit of an awkward kid myself, I was intimidated by his confidence. This would soon dissipate though, as I would come to realize that James just pushed everyone to be the best versions of themselves (because he believed they could be!). He had a truly kind heart. Memories of James... driving around town with too many of us teenagers packed into the car, ridiculous food contests, exercise competitions (not that any of us could keep up), movie nights, video games, hanging at the Blockbuster while the guys were working... perhaps there wasn't much going on, but there were always shenanigans and lots of laughter. I will never forget his goofy nature, contagious belly laugh, blunt honesty, and sweet soul, and feel fortunate that our paths crossed, even for just a couple of years. I can only hope that he knows how many people his light reached, and that he will be remembered fondly.*

“ To my cousin James,  
You were such a big part of my life while we were kids. I am very lucky for so many memories with you. Every Christmas and summer was so exciting to get to stay at the Lindley house. We did so many crazy things, from shoveling every driveway in your neighborhood, then taking the snow to build giant snowforts in your front yard.... to flattening pennies on the railroad tracks. Every moment we spent together we were always up to something but always having fun. Spending all that time in Mundelein growing up felt like my second home. There is a million stories I could go on forever. I am so lucky to have you and your loving family in my life. You are in my heart forever. I love you, and I know we will see each other again.

Love,  
Matt

“ Dear James,

*It's your birthday and we are without you. I miss you my friend. I hope that you know how much of a positive influence you had on our lives. You and Chris turned moving to Mundelein from a lonely miss fitting experience to a deep life enriching friendship that got us all through highschool with fun, laughter and enriching connection. I would not it change for the world. I'll never forget the time we spent together playing Phantasy Star Online. I'll never forget waking up at five in the morning before school so we could use the internet without taking up the phone line because everyone else was sleeping. How we found our own world to explore, an amazing world that most other people didn't even know about. I'll never forget walking together from Chris's house to Dominick's on a regular basis just to go look at the new magazines or all the way to family video to rent movies and games that blockbuster didn't have. I can still picture clearly our daily walk to Wendy's on lunch break for senior year and getting creative with the dollar menu. I'll never forget our little food challenges like going to Ruby Tuesday's to eat the 1lb Colossal Burger and then almost getting hit by a car crossing the street because we were so full. Or the time we almost stopped breathing because we each ate 10 White Castle sliders while watching Jason X and the most unexpected last minute rescue made us laugh so hard that we were on floor of my room crying and gasping for air. I have never laughed so hard in my life and the danger of not breathing made it even funnier. I still think fondly of our high school free period that we shared together hanging out in the senior lounge where we could watch mtv music videos on tv and take a much needed nap after all of our sports. Or the time when Chris went to California and we only had each other to hang out with. That year we really bonded and got to understand each other on a deeper level. We got a gym membership that year at Bally total fitness, our first of many. You taught me so much about working out and I looked up to you for how to do it better and as inspiration for how much one can do with your own body. Even today, every time I go to the gym I remember our weightlifting sessions and all the little tips and tricks you taught me. You inspired*

*us all to take better care of our bodies and get in shape. I loved the time we worked at blockbuster together and could rent games and movies for free. We saw every major movie and played every major game that year. We really expanded our appreciation for both of those media. That is what was always so amazing about you. You were so fit and so burley, the biggest guy any of us knew, yet you had a deep nerdy and emotional inner life that was just as amazing and fascinating. I am so grateful to have gotten to know you as a close friend and share the best parts of highschool and community college together. Chris and I miss you so much man. We feel silly that neither of the three of us tried harder to reach out in the last few years. We always figured you were just as busy as we were and that we would come back together soon like no time had passed, because that is how we are. Truly, we are like brothers, like family. Now you are gone and we have only our memories and the impact you left on us. I will always remember you as Falamas, our strong man hunter, a super athlete, a hilarious jokester, a nerd, a seeker of truth and improvement for yourself and those around you. You'll always be one of my best friends. One of those handful of people you meet in life that you connect so well with, that changes everything for the better. Until we meet again my friend.*

*Thank you, Arthur. I often showed James your videos and photos on Facebook, and he would be grinning and laughing, every time. It was so sweet to see. Thank you for being such a good friend to James for so many years.*

“ Words will never describe how much I cherished and loved James, every single day. He was my little koala bear. I loved everything about him: his sarcasm, his intelligence, his pragmatism. He had a poetic soul. James changed my life, and I will always be different, because of him. He never doubted that he had a special family, who loved and supported him. He had a tough journey and persevered through endless trials. I am thankful for the 14 years I had him. I will carry James with me every day, until we meet again.

“ I will always remember James as that tough little kid. I will always have fond memories of going to camp hickory and of course watching him drop down and do the splits. while doing gymnastics in the back yard. I miss those days. Glad I could share them with him.

“ James and I became friends in 7th grade. Not long after becoming friends we would joke that I made him a nerd while he tried to get me into physical activity.

James's aptitude was not just limited to his physicality, he was also extremely precise with his humor and disarmingly charming. James could command the attention of a room and everyone who knew James can recall at least one occurrence of him getting everyone's attention to perform a physical feat to great comedic effect.

James fostered many traditions in our circle of friends, including the tradition of wrapping birthday presents in ways that were extremely difficult to open. This eventually morphed into the unwrapping of someone's gift becoming an event in itself.

James was very supportive and generous. If you were playing a show somewhere, he would show up. If you needed something he'd let you borrow it. If both of you spent 5 hours waiting for Strokes tickets in a lottery and your number wasn't drawn, he would let you have his ticket.

James enjoyed things sincerely without concern for his image, which explains how our friendship began in the first place. Our lives are richer for having known him. I will miss him greatly.

*Thanks, Chris. You and Arthur were his best friends, and he always lit up when I showed him your photos on Facebook. He would suddenly have the biggest smile on his face. I'm so glad that you remained friends despite the distance*

“ Dearest Lindley Family and Lisa,  
My heart truly aches for you all during this difficult season of deep grief and mourning. There truly are no words to express the sorrow in my heart, and all I can offer to you is prayer and love and hugs when you are ready. I have to say I have been blessed to know James, and to hear all the memories and laughter he shared with my husband as a child. James has always been kind and gentle and welcoming to me. Here on earth, more often than not, we will never truly comprehend Our Lords great plan, or why He chooses the timing of our loved ones departures. Someday we will. Until then our loved ones will live in our memories and in our hearts. One thing I know for certain, I do trust Our Father who art in Heaven, I trust HE IS LOVE. And LOVE never fails. Someone once told me long ago when I was grieving for my Father, " Dear one, Jesus went to the cross, to be crucified, for you, while you were still a sinner. Who are you to say where, when or how much further Jesus would go for another? Only Jesus knows our hearts, and Only Jesus knows what happens in hearts in those last moments of our earthly lives."  
I love you all so dearly, and its because of this family, that I am a daughter of the One True King. Forever grateful for the Lords presence in your lives, because its a torch for those in the dark.

Love Nicole

' For no one is cast off by the Lord forever. Though He brings grief, He will show compassion, so great is His unfailing love. For He does not willingly bring affliction or grief to anyone.' Lamentations 3:31-33

“ I am thankful for James life. He had a special way about him of being intelligent and confident yet vulnerable at the same time. He shared with me not long ago how much he cared for people and wished he was in a position to be helpful. He listened with great care while I shared some concerns I had over some health issues. He was really open and transparent during our talk and I felt a kindred spirit in that moment. I could feel the goodness in his heart and his offer of help was so authentic. We had said we would get together for a coffee or ice cream on a future visit. I was happy thinking of getting caught up and getting to know James as an adult. I still think of him as a little boy. He always jumped in my arms at the swimming pool as a kid and would do impressive flips off the couch. We watched Oliver and The Frugal Gourmet. He talked so fast as a kid and I got used to it so I easily understood. James life meant so much and God chose the perfect family to love him through every season of his life. He played a very special role to each person who loved him and he will be missed dearly.

“ *My precious cousin, Donna, Paul and family, I have no words! My heart breaks for the loss of your beloved son!! . Losing your mom and now, without warning, your precious son, James, is just too much grief to carry! I am so sorry for your loss and if there is anything I can do to help during this most devastating time, if only an ear to listen, please know I am always here for you and I hurt with you!! As a mother, I know there would be no words of comfort that could distract me or comfort me during the loss and grief of my child and I know of no words that could reach you through your shock and unending pain!! Please know you remain in my thoughts and I pray without ceasing for you, as a family, and for all those who know and love your dear James. May God's peace that surpasses all understanding, comfort and carry you, leaving only one set of footprints in the sand.*

*With unending love and compassion from my soul to yours, Sharon*
