“ To Larry's Family,

What I remember most about your Dad and coaching was how he was straight forward and honest about where you stood on his teams and his evaluation of your talents. That sort of straight forward approach has helped me in life and in my coaching endeavors.

Always enjoyed seeing him and your mom at events and a few stops by the house.

My entire family sends it's condolences.

“ *Bob, Susan, Jeff and family,*

Our deepest sympathy in the passing of your father this week.

We have all lost a remarkable and inspirational man whose presence left its mark on everyone who knew him. As a coach, teacher, mentor and community member your father was respected and admired. As a husband, father, grandfather and great grandfather, he couldn't have been more loving or proud of his family.

No visit to Libertyville was ever complete without stopping by to spend a few minutes with your mother and father. The time spent together always left us better for the experience. They served as the anchors to the old neighborhood. They were the source of all the benefits that come from knowing such good people over a lifetime.

We remember your father fondly this week, but he will always remain present to us throughout our lives. We ask that God's strength and blessings be with each of you during this difficult time.

*Warmest regards,
Jim and Anne Dease

“ I kept statistics for his basketball team. He was advisor to our Lettermen's Club. And he was my history teacher. When it came to all things LHS, he maintained a teacher-student relationship with students.

But it was different in the neighborhood. He was a good neighbor and friend to those of us living on the Drake-McKinley corner. I have fond memories of him. My condolences to Bob, Susan and Jeff.

“ Our sympathies to the Leon family. I had Larry as a teacher at LHS, my husband coached with him and worked for him selling insurance and we were also neighbors for many years. Thinking of you and sending healing thoughts and prayers at this difficult time.

“ I had many great teachers during my K-12 years in Libertyville and Mr. Leon was at the very top of that list. He taught me more than just US History. I was extremely lucky to have been one of his basketball statisticians and learned so many life skills watching him coach basketball. The most important and memorable was what it takes to be an MVP team player and I have tried to teach that to my children, grandchildren and students. Most important is that after my 1965 graduation and moving away from Libertyville, we were able to maintain a life-long friendship. I feel very blessed to have had such a gifted teacher in my life!

“ Sincere sympathy to you all, Larry was such a force in many young lives...i am in a Bible Study with a gal, Joan Wells who tells so many stories of her time in HS with Larry, one or two are: she had not gotten on the cheerleading team and still wanted to ride the bus to the games...Larry had her do Stats...and then she tells of the time at the end of year Banquet that when time to choose an honor for a player, Larry gave it to the boy who may not have been the best player on the team, but was there for every game and every practice. i have so enjoyed my visits with him and with Carman before she passed away...May he rest in peace and they say "the only thing you can take with you when you pass from this world is the good you left behind and Larry did lots of that"

“ *Coach Leon was passionate about teaching, whether on the classroom or on the basketball court. Because of his knowledge and his love of young people, he influenced countless lives for the better. He was always a gentleman who exemplified class and sportsmanship. Libertyville mourns a great man. Ken Westlake Libertyville Class of 1973.*
