“ So sorry for the loss to the family. I went to school with Michael since Kindergarten at Ellis. He was very smart, just like his brother. He is looking down on us now, in a better place.

“ I have been looking for you for many years, trying to reconnect. I am so heartbroken to know I will never have that opportunity. My deepest condolences. Please know that even though we never had the chance to reconnect, you and Dave have been in the thoughts of many of our classmates, myself included, for many many years. I'm so sorry I never had the chance to tell you how much we've missed you face to face.

“ Dear Aunt Anne, Uncle Jim and Dave, I am keeping each of you in my thoughts and prayers throughout each day. I have been remembering the special times we all had together at our Thanksgiving celebration and family reunion in 2011. Alex loved playing football with Mike and all of the other cousins. We also each had some nice conversations with him where we could discern his great intelligence and patience with us as we worked on understanding the computer concepts he shared with us among other topics of conversation. He and Alex really connected during that visit and I know that Mike also played some video games of Alex's choosing with him. I am very grateful for the three days we spent as a family during that visit. We are all missing Michael very much and know that what each of you are experiencing is simply unimaginable. Please know that Michael was very loved by our whole family and even though we are separated from you by physical distance right now, we are sending you loving thoughts and prayers every day. I love you very much!
