“ I was fortunate enough to meet Dan at the University of Illinois through his chosen fraternity, Triangle. I remember him as dedicated student but also as an individual committed to having fun in order to strike a balance in life. Wry humor and serious discussion were part of Dan's character he shared with me and others. I offer my condolences to his family. May fond memories provide solace and smiles.

“ I think most who read this will agree that, as with me, their lives are fuller for having known Dan. We immediately clicked in junior high and shared many fond memories in college. My heart and prayers are with the family now and always.
